March 12, 1957

Dear Mr. Dulles:

Reference is made to the Presidential Directive of December 19, 1956, establishing the National Security Council Special Committee on Technical Surveillance Countermeasures. This Directive has been circulated as NSC 5618.

Among the responsibilities given the Special Committee by this Directive were the establishment and coordination of policies for the purpose of insuring 1) the establishment by the departments and agencies concerned of procedures to be followed upon the discovery of technical surveillance devices including prompt notification thereof to the heads of interested departments and agencies and 2) provision for a damage report being prepared after each discovery, giving the extent and nature of known or presumed compromise of U. S. classified defense information.

At its meeting of March 9, 1957, the Special Committee decided that the head of each department or agency represented on the Committee should be requested to inform the Committee:

1. Whether instructions have been issued to assure that the head of each department or agency will be promptly informed of the discovery of technical surveillance devices by his department or agency or within facilities occupied by his department or agency, and
2. Whether instructions have been issued to assure that adequate damage reports will be prepared in the case of each discovery.

Your answers to these two questions should be submitted to the Special Committee so that they may be considered at the Committee meeting of April 3, 1957. Correspondence may be directed to the Chairman of the Special Committee: Mr. E. Tolan Bailey, Director, Office of Security, Department of State.

Sincerely yours,

William L. Uanna
Acting Chairman
NSC Special Committee on Technical
Surveillance Countermeasures
